php

```
1 <?php
2     $a=96588;
3     $isprime = true;
4     $i=2;
5     if($a <=1){
6         $isprime = false ;
7     }
8     while ($i<=$a/2){
9         if($a% $i==0){
10             $isprime =false;
11             break ;
12         }
13     }
14     $i++;
15 }
16 if ($isprime ){
17 }else {
18     echo (" $a is prime number");
19     echo (" $a is not prime number");;
20 }
21 ?>
```
